

Alabama's Water Environment Association

2011 Conference and Technical Program April 10 – 13, 2011

Call for Presentations

Alabama's Water Environment Association (AWEA) is pleased to announce the Call for Presentations for the **2011 Conference and Technical Program to be held April 10 through April 13, 2011 at the Perdido Beach Resort in Orange Beach, Alabama.** The Technical Program Committee is seeking topics for presentation at the Conference and invites you to be a presenter, a session moderator, or to help solicit associates, engineers, corporate leaders, public officials, academia, consultants, or equipment and service representatives to do the same so that we can enhance our industry by sharing technical knowledge and experiences that support and continue growth.

The 2011 Technical Program will focus on providing training in the following categories for our water quality professionals:

1. Wastewater Collection and Treatment
2. Watershed Management/Storm Water
3. Operator Training
4. Management/Professional Issues

Presentations are invited in the following areas of interest related to these categories:

- Case studies in wastewater collection, treatment, disposal and management
- Watershed management
- Groundwater issues (contaminant sources, low recharge rates, etc.)
- Biosolids and beneficial reuse
- Laboratory and sampling procedures for wastewater
- Storm water control, high-density development issues (erosion, flooding, etc.), and permitting
- Optimization of process control, energy management, and other resources
- Project management, training, and safety

Interested Presenters are requested to complete the attached "Technical Presentation Information" form and return it **by Monday, November 1, 2010** to Scott Cummings (see details below).

If you are unable to present at the conference but have a topic in mind that you would like to see presented, we would appreciate your input by including it on the attached form and returning the form to us so that potential presenters can be contacted. We are requesting that abstracts of the presentations be submitted to the addresses below by **Monday, November 1, 2010**. Abstracts of presentations should be 300 words or less and should be submitted in digital form. Presentations should not exceed **40 minutes (25 to 30-minute presentation with 10 to 15 minutes of questions and answers)**. One speaker per presentation will receive reduced conference registration. Contact either Scott Cummings or Matt Dunn (see below) for more details. Conference registration information with the list of presentation topics will be sent to AWEA members in January 2011.

We hope to have more than 500 water quality professionals in attendance, along with 70 exhibitors of equipment and services. Please circulate this Call for Presentations within your local network. With your help, we can continue to have the best technical program available for Alabama's water quality professionals.

Scott Cummings

AWEA Technical Program Coordinator
CH2M Hill
